Our Invitation To . . .

THE 1970 IOWA ROYAL

The Iowa Royal Sale, for twenty years a highly regarded and widely recognized event has been sponsored by the Iowa Shorthorn Breeders Association.

It's reputation has become such that each year the Association and consignors to this sale strive harder to improve this sale and the quality of it's offering.

In 1970 the Iowa Shorthorn Ass'n and the Iowa Polled Shorthorn Club are consolidating into one association which will make the strongest Shorthorn breed organization ever in Iowa, and add great strength and quality to this sale.

In the last several years these consignors have recognized the kind of beef animal demanded by the present day beef cattle industry. They accepted the challenge, used every tool at their command and are proud of the progress they have made.

Therefore, in this offering of 68 bulls and 25 females the results of their efforts are definitely apparent.

A study of this catalog will show that this sale offers good Shorthorns and Polled Shorthorns in every category of performance such as universally accepted breeding, show records, sales records, official performance testing records and fertility tests.

Year after year breeders, ranchers and farmers from a wide area and many states have come to the Iowa Royal for their improving herd bulls and foundation females. Their annual return must be considered proof of their satisfaction with the results. The last several years commercial producers interested in crossbreeding have found this sale a reliable source for their crossing seed stock.

In addition, junior club members and breeders in increasing numbers have found this sale an ideal place to obtain their junior project and future herd foundation females.

Plan to attend this sale. We are confident that this offering will fill the needs of everyone.

A stylized map of Iowa, rendered in black and white. The map shows the state's outline with major cities labeled in bold, uppercase letters: SIOUX CITY, SPENCER, MASON CITY, FORT DODGE, WATERLOO, DUBUQUE, AMES, CEDAR RAPIDS, COUNCIL BLUFFS, DES MOINES, AVENPORT, and OTTUMWA. A network of highways is depicted with white lines and numbered shields (e.g., 75, 71, 20, 30, 80, 34, 63, 18, 16, 52, 61, 80, 31, 218). Overlaid on the map are numerous small white circles, each containing a black number. These numbers represent data points for various locations across the state. The numbers range from single digits (e.g., 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140) to three-digit numbers (e.g., 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140). The map is set against a dark background, and the overall style is reminiscent of a vintage road map or a data visualization overlay on a geographical map.

We have used him on 25 of our cows and heifers. The production record of his dam is ranked fourth in our herd of 50 cows. Four half brothers in an official carcass contest had 2 sq. inches average loin eye per 100 lbs. of carcass weight and an average of .30 inch fat cover. The dam's sire Valley Viking x weighed 1975 lbs. and her grandsire Hermes Sensation x weighed 1880 lbs. packinghouse weights when they were sold on the market. The records of our herd influenced Don Gilliam, a Montana rancher to purchase 9 of our bulls to use on Angus cows.

Her calves continue to grow as yearlings. This bull was on limited feed of grain and grass last year. His soundness hasn't been impaired by overfeeding. Don't ignore the reputation that Crusader's progeny have acquired in the steer shows both on the hoof and on the rail. Excellent fertility test.

M F ROAN JUGGLER x—A very outstanding bull with great bone and rear quarters. If you are looking for a herd bull, I think he is just what you would want. I feel that he is good enough to go into any herd. The reason I am selling him is that I bought 2 bulls from R. D. Magill last April. Both are good and I have used both in my herd, but have no need to keep two. I also have two younger half brothers of this bull, 1969 spring calves. You will notice that he is sired by Roan Lad of Northwood x AAA. Two half sisters topped the North Dakota Polled Shorthorn sale in October at \$800 and \$850.

JUSTINIAN'S GIGANTIC—Here is a big bull. Not fat but just kept in good growing condition fed on grass. On official IBIA test he had an outstanding weaning weight of 612 lbs. at 205 days of age and weighed 950 lbs. at 330 days. This is the kind you don't come by every day. He is sired by Rothney Justinian the Calgary champion who was a tremendous big bull and weighed well over a ton. In trying to produce the good big, growthy cattle so needed today, many of us wish we could bring back a few Rothney Justinians. We had two of his sons, one we are using in our herd, and the other is Gigantic which we proudly consign to the Iowa Royal where so many outstanding bulls have been sold. His dam is by the great sire Louada Barbarian who sired big cattle. We sincerely believe this bull will help any breeder with a growth rate problem in his herd.

H T R RED RAVEN HAS AS GOOD A PEDIGREE AS YOU CAN FIND. Coronet Max Juggler 18th x was over a ton. Calrossie White Emblem, sire of Kelburn Crocus Emblem 2nd was a 2300 lb. bull. In fact all the cattle in Red Raven's pedigree were really big cattle. Red Raven ran with 54 cows this summer so will be in only moderate flesh. He is a sure breeder.

The 13th's dam is a very good cow from the Mina family. The Mina's have exceptionally good milking ability and size, with very good feet and legs. I recommend this bull very highly.

Standard Guarantee

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
